- Parents should have “time lines” of where their children are to and from school
- There is a new policy out about age of supervision of children. Parents need to familiarize themselves with it and prepare accordingly.

Sharing the School

- We need to make groups filling out a facility request form aware that they need to check and clean the bathrooms.
- perhaps add in the contract that use of the facility will not be allowed if cleanliness is not adhered to

Fence

- It is made of pressure treated wood and since 2002 it has been banned in residential use due to arsenic.

The fence is in line with regulations and there is paperwork to verify

New Business

- school has concern over possible theft problems
- children can utilize bike racks across the street at the basketball court (not often utilized) and walk safely via cross guards

Again the concern over additional ½ days were brought up

- perhaps the school can put more of an explanation of why or what the half days entail and why the school does not have control over last minute changes.
- The Dodea training days can be looked at like the military training days – sometimes unpredictable

- Microwaves were purchased by the 4th-6th grade student council for their use
